Standard Features, Benefits & Options

CONSTRUCTION: Easy cleaning, corrosion resistant stainless steel front, side panels and tank. Adjustable legs for leveling. Special flue design reuses exhaust heat for efficiency.

FRY TANK: Stainless steel flat bottom fry vat spreads oil across a large horizontal surface area to create perfect conditions for floating food product like funnelcakes, doughnuts, beavertails, fried dough and churros as well as fried foods that require large surface areas like fish filets, tempura, samosas, bacalaito and chicharrones. 1" diameter grease drain valve with drain-pipe extension. 20" wide x 20" long wire lifting screen. Model CC-2932 features 35 to 40 lbs. fat capacity. An accompanying stainless steel tank cover doubles as a side drain board.

BURNERS: CC-2932 fryers feature (3) efficient steel burners each rated at 25,000 BTU's.

CONTROLS: 200° - 400° F Snap Action thermostat control for precise temperature control and faster recovery. Combination safety valve, pressure regulator. Double safety hi-limit control. Thermopile pilot system. ½" rear gas connection with ¾" adapter if needed.

TESTING: Optimal pressure is 4" WC for natural gas, 10" WC for propane. ETL design & ETL Sanitation (ANSI-NSF4) certified.
