Standard Features, Benefits & Options

CONSTRUCTION: Cabinet style frame without legs. Rugged welded inner frame. Insulated double wall construction. Easy cleaning stainless steel finish, bull-nose rail, splash guards and front drain grease trough. The stainless trough features a large slot and shoot to channel grease through the warming rack to a pan below.

CHAR TOP GRATES: Top grates are case iron measuring 20.5" deep and feature a cast-in grease trough on each blade to catch some grease to channel to the grease pan while reducing flame flare-ups.

BURNERS: 24", 36", & 48" feature 2, 3, & 4 cast iron "H" pattern burners respectively, 30" & 42" models feature 4 & 6 straight burners respectively.

RADIANTS: Heavy angle iron radiants hang above the burners in an inverted "V" pattern from a heavy-duty welded firebox. Radiants burn most drippings while holding and radiating heat both upward to the cook surface and downward onto the warming rack.

CHEESEMELTER-WARMING RACK: Heavy wire rack 18" deep by 6" less than the width of the grill frame. Racks feature adjustable height levels.

CONTROLS: Reliable brass gas valves set at the factory for natural gas or propane gas as specified. Cool to the touch control knobs. A gas pressure regulator accompanies each appliance. Optimum gas pressures are 4" WC for natural gas and 10" WC for propane gas. 3/4" gas connection.

ACCESSORIES & OPTIONS: Equipment stands, heavy plated pipe legs, tall splash guards, knob protectors and gas hoses.

SPECIFICATIONS

Model Number	Width in./mm.	Sq. in. surface	Total BTU	Approx. kg/lbs
FHP24-24RBB	24 / 61.0	510	60,000	91 / 200
FHP30-30RBB	30 / 76.2	638	80,000	123 / 270
FHP36-36RBB	36 / 91.4	766	90,000	136 / 300
FHP42-42RBB	42 / 106.7	893	120,000	164 / 360
FHP48-48RBB	48 / 121.9	1020	120,000	182 / 400
