

quarter size convection oven

model : **GS1740**

FEATURES

- Heavy duty stainless steel construction with fully insulated double wall body
- High-efficiency forced air convection for fast, even baking
- Cool-to-the-touch door with double pane glass for optimal heat retention and safety
- 3 removable wire racks
- Overheat protection
- Timer from 0-120 minutes
- Temperature range from 150-500°F

Maximize your cooking capacity even in the tightest kitchen spaces with Global Solutions' Quarter Size Convection Oven. With a compact design, these ovens are a perfect solution for operations with limited space or for kitchens looking to bake in smaller batches.

GS Countertop Convection Ovens are constructed of highly polished stainless steel with high performance heating elements and rear fans, stainless steel door handles, and chrome plated wire racks and rack slides. The bake chamber is made of stainless steel. The oven door is double pane tempered glass and features a heavy-duty hinge mechanism.
