**STAINLESS STEEL ELECTRIC OVERHEAD CERAMIC INFRARED FOOD WARMER**

**Features**

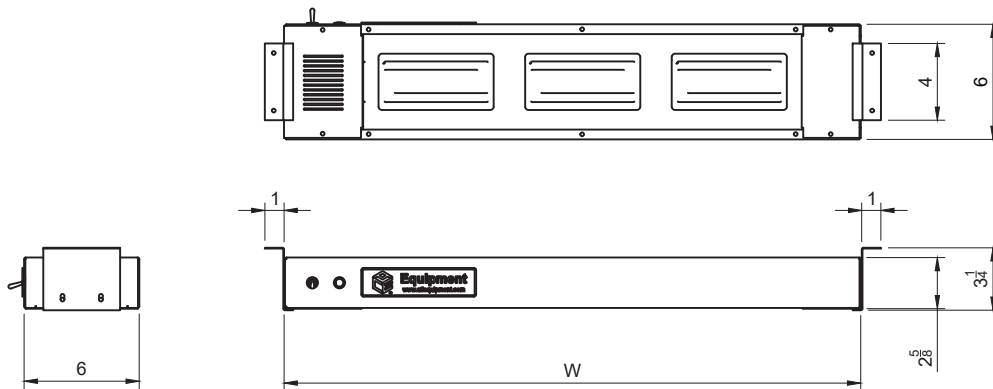

- Stainless steel construction
- Powerful ceramic infrared heating elements
- Holds food products at their maximum temperatures
- On/ Off toggle switch
- Easy to clean design

**Description** **Stainless Steel Electric Overhead Ceramic Infrared Food Warmer**

Keep your foods hot and ready to serve with the ceramic infrared food warmer! This warmer features heating power for outstanding warming potential, and its ceramic element design provides a large warming area for maximum utility. Ceramic elements offer an intense heat that's ideal for covering greater distances. It can be a great solution for problem areas where you're having trouble warming food that is farther away.
